

DR. BELL'S PINE-TAR-HONEY

"Ring out the many, ring in the few,
Ring out the false, ring in the true."

DR. BELL'S Pine-Tar-Honey

Contains two of the old-time household remedies for COUGHS and COLDS, Pure Pine-Tar and Pure Honey. With these are scientifically combined several other ingredients of known value in the treatment of COUGHS. We tell you on the package what is in the bottle.

Why Do The People Use Over 5,000,000 Bottles Annually?

Here is One of the Many Reasons Given by One of the Many.

WORDS OF PRAISE.

After the experience of a severe cold which came near developing into pneumonia I have been cured with one 25 cent bottle of your Dr. Bell's Pine-Tar-Honey. The first teaspoonful stopped my cough. To say it is a wonderful remedy is putting it very lightly; can never say enough in praise of your wonderful medicine, and consider your little booklet that was thrown to my door a friend in need. You may use this letter if you like, for it will always be a pleasure to recommend your Dr. Bell's Pine-Tar-Honey.

ELECTION OF OFFICERS HELD

AT MEETING OF OGDEN CITY IMPROVEMENT LEAGUE.

Dedication of New High School Considered—Resolutions Commemorative of Dee Memorial

An interesting meeting of the Ogden City Improvement League was held at the Weber club rooms last evening. The object of the meeting was principally to elect a board of directors for the ensuing year. The following persons were elected to act as members of the board: P. M. Driggs, A. T. Wright, Don Maguire, S. H. Browne, L. S. Hodgson, J. C. Nye, P. M. Cushman, J. E. Carver, L. J. Brummitt, George H. Davis, C. R. Hollingsworth, John Pingree, A. P. Bigelow, J. S. Lewis and J. N. Spargo. It is expected that the new board will hold a meeting next Tuesday night at which time the officers of the board will be elected. These officers become ex-officio officers of the league.

President Driggs in a brief statement to the members of the league, stated that much had been accomplished by the organization and that it was hoped that the good work of the league would go on. He said it was not the purpose of the organization to usurp the powers or prerogatives of the city council or other officers of the city, but that the league's duties lay altogether in the capacity of a helping and suggestive body. He pointed to the parking of the depot grounds, the securing of a high school building site and the voting of bonds for the erection of the same, the parking of the side walks of the city and the contemplated erection of the Dee hospital as possible and most probable results from suggestions that came from the civic league. Mr. Driggs closed his remarks by urging the organization to continue in its good work and aid in every possible way in the beautifying and uplifting of Ogden. He hoped that the members of the league would continue to be "boosters" for the city and at all times lend a helping hand to the city administration and all of its officers.

The question of dedicating the new high school building to the purpose for which the people have bonded the city to erect was discussed in rather a suggestive manner and it was the sense

of the meeting that the building should be dedicated under appropriate exercises and that the Hon. Fred J. Kiesel and wife should be duly honored upon the occasion. To this end a committee consisting of J. S. Lewis and John Pingree was appointed to confer with the city board of education regarding the matter, the committee being given the authority to co-operate with the board of education in whatever action they have already taken in the premises or in whatever they might yet conclude to do.

The following resolution was unanimously passed by the meeting after many kind words had been said by members of the league regarding the attitude of the Dee family toward the building of a hospital in the city:

"Whereas, Mrs. Thomas D. Dee, Mrs. R. B. Porter, and the members of the Dee family through their great and philanthropic spirit, have purchased a beautiful and commanding site upon which is to be erected the 'Thomas D. Dee Memorial Hospital,' in memory of their husband and father who as one of our late public citizens and benefactors.

"Therefore, be it resolved, That the Ogden City Improvement League, recognizing the value of such a gift to humanity, hereby heartily commends and expresses its warmest appreciation to the donors and builders of this magnificent testimonial, a tribute which comes as a blessing to mankind, rendering aid to the sick, afflicted and suffering, and in which special benefits and blessings shall not be withheld from those who need charity, and

"Be it further resolved, That this resolution be spread upon the records of this league, and that a copy be delivered to Mrs. Dee and family."

SCHEDULE OF TARGET PRACTICE

ARRANGED FOR MEMBERS OF OGDEN POLICE FORCE.

Basement of Armory Secured and Careful Record of Scores Will Be Kept.

Chief of Police Browning has arranged a schedule of pistol target practice for the members of his force, and the same will be commenced within a few days. The free use of the basement of the armory has been secured through the courtesy of those

in charge and even a heavy target especially for pistol shooting has been ordered and will be installed immediately. The police department will furnish its own ammunition.

The men are enthusiastic over the prospects of an opportunity to brush up their skill with firearms and rivalry is already in progress between those whose records as marksmen have long been enviable. The heavy Colts revolvers, as well as the Browning automatics, will be used in the practice, as both styles find favor with the department, some preferring one and some the other.

A careful record will be kept of each officer's work and it is expected that some remarkably high scores will be made. Prizes will be permitted at least twice each month for each man, the various shifts to repair to the armory immediately after finishing their day's work. All large cities have made pistol practice one of the strong points of training, and the rivalry which instantly arises between the men, soon results in greatly increased efficiency. Chief Browning is confident that he will soon have some record scores which will compare favorably with those of any force in the country.

AWARDED SECOND PRIZE

CO. "B" OF OGDEN ELATED OVER ANNOUNCEMENT.

First Battery of Salt Lake Wins First Prize on Account of Numerical Strength.

The members of Co. "B," Utah National Guards, are elated over the news that the Ogden boys have been awarded the second prize of \$30, offered by one of the staff for the best companies in the state. The sum of \$100 was divided into three prizes; \$50, \$30 and \$20; the first of which was won by the First Battery of Salt Lake. The numerical strength of a company counted 25 points out of a total of 100 points, and the First Battery, therefore, secured first place, on account of its high average of membership.

These facts, then, show Ogden's Co. "B" to be the best drilled company in the state, as its membership is very small, there being but 59 men enrolled. The other points counted

include those for condition of equipment, uniforms, etc., and general excellence.

The members of company "B" state that they are determined to win the Governor's cup the coming year. This cup, which is a handsome trophy, offered by Governor Cutler, for the best drilled company at the encampment in 1907, was captured by company "H" of Salt Lake, and will be contested for each year. The boys are confident that they will succeed in capturing the coveted trophy.

The great strides made toward an ideal showing since General Wedgewood assumed direct administration control of the National Guard of Utah is shown by the following statement:

1905—Strength, 309; per cent present; officers, 84; enlisted men, 57.
1906—Strength, 342; per cent present; officers, 93; enlisted men, 86.
1908—Strength, 367; per cent present; officers, 94.4; enlisted men, 74.9.
1909—Strength, 402; per cent present; officers, 92.68; enlisted men, 88.88.

The general results of the showing made before the government inspectors are far higher than ever before in the history of the guard. In the circular before referred to, General Wedgewood says:

"The general result of the recent inspection is very gratifying to the commander-in-chief. It is a credit to the state. The guard as a whole showed more cohesion, interest and efficiency than at any previous inspection, at least within the last three years, and the officers and men of the respective commands are to be congratulated upon the results attained."

GOVERNOR APPOINTS CARVER

MEMBERS OF STATE DAIRY AND FOOD BUREAU.

Local Grocer Selected as "Merchant Engaged in Sale of Food Products."

Word was received today to the effect that J. S. Carver, the local grocer, and president of the Retail Merchants' Association of Utah, has been appointed one of the five members of the State Dairy and Food Bureau. According to the law which follows, it will be seen that the bureau is made up of the state chemist, the state dairy and food commissioner, and three members to be appointed by the governor. One of the three must be a practical manufacturer of dairy products, one a merchant engaged in the sale of food products, and one member a non-producer of food products.

Mr. Carver has been selected by Governor Spry as the member designated as "a merchant engaged in the sale of food products," and George A. Fone of Spanish Fork has been appointed as "a manufacturer of dairy food products."

The new law, which was recently passed by the legislature for the regulation of the manufacture and sale of dairy and food products, and which goes into effect April 1, is as follows: State Dairy and Food Bureau.

An act creating a state dairy and food bureau, defining its duties and powers, and making an appropriation for the purpose of carrying out the provisions of this act.

Be it enacted by the Legislature of the State of Utah:

Section 1.—There is hereby created a State Dairy and Food Bureau which shall consist of five resident citizens of the state. The state chemist, and the state dairy and food commissioner shall be members of the said board; and three members shall be appointed by the governor of the state on or before the first day of April, 1909, as follows: One member of this bureau shall be a practical manufacturer of dairy food products; one member shall be a merchant engaged in the sale of food products, and one member shall be a non-producer of food products. Members of this bureau shall hold office for the period of four years and their successors are appointed and qualified; provided, that the first members appointed under this act shall be appointed for terms, so that their terms shall expire in one, two and three years respectively. Any vacancy shall be filled by appointment by the governor for the unexpired term. The members of said bureau shall serve without compensation, but shall receive their actual and necessary traveling expenses, and with in twenty days after their appointment shall take the oath of office as required by the constitution; and they shall thereupon meet and organize by electing a chairman, secretary and treasurer. Any one of them may be removed by the governor for neglect or violation of duty. They shall make report in detail to the legislature not later than the first day of December next, preceding the meeting thereof.

Section 2.—It shall be the duty of the state dairy and food bureau to formulate and prescribe such rules and regulations for the operation of creameries, butter and cheese factories, dairies, slaughter houses, confectioneries, bakeries, hotels, fruit and vegetable canneries, flour mills, farm dairies, or any other factory, establishment, store or house where dairy or food products of whatever nature are bought, sold, manufactured or prepared, or stored or exposed for sale for public use, as shall be deemed necessary by such bureau to fully carry out the provisions of this act, and all laws now in force or that may be enacted relative to dairy and food products, and for the promotion and maintenance of the public health and safety, and for the prevention of false grades, weights and measures and also for advancing the value of Utah food and dairy products. Such rules and regulations that have been or shall be promulgated by the Agricultural Department of the United States under and by authority of a law known as the Pure Food and Drug Act of June 30, 1906, as well as an act of congress, approved June 30, 1906, governing meat inspection. The dairy and food commissioner shall execute the rules and regulations of the bureau, and the bureau shall provide him with deputies, agents, and such assistants as may be deemed necessary from time to time. It being the object of this law to protect the consumer of food products against fraudulent, unwholesome and adulterated food; and for the promotion and maintenance of the public health and safety; and it shall be the duty of this bureau to promote improvements in dairy and food products, and educate the producer in the care of all dairy and food products and their economical production.

Section 3.—Any person violating any provision of this act or any rule or regulation of the dairy and food bureau shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined in any sum not less than \$25 nor more than \$250.

Section 4.—For the purpose of carrying into effect the provisions of this act, there is hereby appropriated out of the state treasury the sum of \$2,750 for the fiscal year of 1909, and \$2,750 for the fiscal year of 1910, or so much thereof as may be necessary. Said payments to be paid as provided by statute.

ERECTION OF PACKING STATION

TO BEGIN IMMEDIATELY ON WALL AVENUE.

Fruit Growers to Build Brick Structure That Will Greatly Facilitate Handling of Fruit Crops.

Manager J. M. Forristall, of the Ogden Fruit Growers' association, stated today that everything was in readiness for the immediate erection of the new fruit packing station. Smith & Hodgson, the architects, will proceed at once with the contracts of construction.

The building, which will cost from \$5,000 to \$4,000, is to be erected at the corner of Wall and Spencer avenues, near Twentieth street, and is to be of brick. An iron building was considered at one time, but as that kind of material is inclined to draw the heat, it was thought that brick would be much preferable for the storage of fruit. The building will be one story high and will have a 54-foot frontage on Wall avenue.

At the rear, which will be diagonal in shape, to conform with the direction of the O. S. L. tracks, a four-foot platform for car-loading purposes will be built, while across the east front and along the south side will be constructed 12-foot unloading platforms for unloading fruit from the wagons which transport it to town. Spencer avenue, will run along the south side, flush with the platform.

Another convenience will be a platform upon the north side of the building for the loading of box material. A 25-foot driveway will run along the north side and an additional outlet will be provided along the tracks at the rear, enabling the growers to load their box material and supplies quickly and pass out to Twentieth street, without the vexatious delays which have heretofore been experienced while long lines of heavily-laden fruit wagons were discharging their loads at the single front entrance.

It is expected that the space mentioned upon the north side of the building will be used at some future time for an enlargement of the packing station, possibly next year. The building, now contemplated, will be ready for occupancy about June 1, and will add much to the efficiency of the association in marketing the products of our local fruit growers.

Rural Wit.
As a countryman was sowing his ground, two smart fellows were riding that way, and one of them called to him with an insolent air: "Well, honest fellow," said he, "is your business to sow, but he reap the fruits of your labor?" To which the countryman replied: "Is very like you may, for I am sowing hemp."—Catholic News.

FOR S.S.S. RHEUMATISM

Rheumatism is caused by an excess of uric acid in the blood, which gradually gets into the circulation because of indigestion, constipation, weak kidney action, and other irregularities of the system which are sometimes considered of no importance. This uric acid causes an inflamed and irritated condition of the blood, and the circulation instead of nourishing the different portions of the body, continually deposits into the nerves, muscles, tissues and joints, the irritating, pain-producing acid with which it is filled. Rheumatism can only be cured by a thorough cleansing of the blood, and this is just what S. S. S. does. It goes down into the circulation, and by neutralizing the uric acid and driving it from the blood, effectually and surely removes the cause. S. S. S. strengthens and invigorates the blood so that instead of a weak, sour stream, causing pain and agony throughout the system, it becomes an invigorating, nourishing fluid, furnishing health and vigor to every part of the body and relieving the suffering caused by this disease. S. S. S. being a purely vegetable blood purifier, is the surest and safest cure for Rheumatism in any of its forms. Book on Rheumatism and any medical advice desired sent free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Your Neighbors Can Tell You

No doubt, if you yourself don't know, of many marvelous cures of Stomach, Liver, Blood and Skin affections that have been made by the use of Dr. Pierce's Golden Medical Discovery, for it has a most successful record of over 40 years.

These CURES embrace also many bad cases of Weak Lungs, lingering Coughs, Bronchial, Throat and Lung affections, some of which, no doubt, would have run into Consumption, had they been neglected or badly treated. We don't mean to say that the "Golden Medical Discovery" will cure Consumption when fully seated, but it will strengthen weak lungs, improve digestion, and make pure, rich, red blood thereby overcoming and casting out disease-producing bacteria and giving robust, vigorous health.

All particulars about the "Discovery," its composition and uses, in Common Sense Medical 1000 pages, revised up-to-date, sent for 31 cents, in one-cent stamps in cloth covers, or paper covered, to pay cost of mailing only. Or send post card request for free booklet to WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, No. 663 Main Street, Buffalo, N. Y.
